

What sets FILBUR apart?

Continuous Collaboration. Continuous Improvement.

- **Quality cartridges. Quality relationships.**

We work hand-in-hand with manufacturers and distributors to deliver the choices, options, and value they need to succeed in today's competitive world.

- **Flexibility.**

As the leading manufacturer of OEM filters, our experts will bend over backwards to develop the custom applications pool and spa manufacturers need to set themselves apart.

- **Ongoing investment.**

We've invested in product improvements and new personnel in key areas for one-on-one responsiveness. Plus our evolving website will continue to offer targeted solutions.

- **Peace of mind.**

More than 1,400 cartridge and grid configurations mean distributors and dealers can get what they need in a hurry.

The Right Fit, Right Model

FILBUR Pool and Spa Cartridges

More than 1,200 FILBUR configurations are produced to OEM specifications under the strictest quality standards. They offer:

- The strongest reinforced PVC center cores for even distribution of stress and increased debris loading
- Premium filter media for longer life and better water clarity
- Sharp pleat folds for increased flow and easier cleaning
- Reinforced antimicrobial end caps to repel bacteria and mold
- Embossed part numbers for easy identification
- Wider break-resistant bands for optimum flow and filtration without pleat flutter
- Advanced formulation end caps resist deterioration from salt pools and high levels of chlorine
- End caps with integrated fittings for easy installation and removal without PAD adapters
